JANET ABORVOR

Cybersecurity Analyst | AI Enthusiast | Web Developer

📧 abenarhdavidson@gmail.com

PROFESSIONAL SUMMARY

Cybersecurity Analyst, Web Developer, and Programmer with a growing passion for Artificial Intelligence and conversational technologies. Skilled in building responsive web applications and leading AI-focused initiatives. Proven ability to lead projects, mentor teams, and simplify complex technical concepts. Particularly interested in using AI and chatbots to solve real-world problems and enhance user experience.

SKILLS & TECHNOLOGIES

• Languages & Frameworks: JavaScript, Python, HTML/CSS, Next.js, React, Node.js
• AI & Chatbot Tools: Python (NLP), Dialogflow, OpenAI API, TensorFlow (beginner)
• Cybersecurity: Risk assessment, vulnerability management, threat analysis, incident response
• Development Tools: Git, Docker, Postman, AWS
• Soft Skills: Communication, leadership, problem-solving, teamwork, adaptability

EXPERIENCE

- Headstarter AI Chapter Lead | Academic City College

• Organized events and workshops focused on Artificial Intelligence, Machine Learning, and chatbot development
• Coordinated with faculty and industry experts to provide relevant AI content to students
• Encouraged student collaboration and real-world AI exploration

- Team Member – Headstarter AI Chapter | Accra Institute of Technology

• Supported AI-driven campus events and collaborative projects
• Engaged in hands-on AI development with peers

- Cybersecurity Analyst

• Conducted vulnerability assessments and penetration testing
• Implemented incident response strategies and monitored for security breaches
• Ensured IT systems complied with cybersecurity standards

- Web Developer | Freelance/Contract Projects

• Created responsive websites using React, Next.js, and Node.js
• Integrated AI APIs for intelligent web features such as chatbots
• Delivered tailored solutions based on client requirements

- Student Group Leader | Tech Organization

• Led tech events centered around web development and artificial intelligence
• Mentored junior developers and coordinated speaker sessions

EDUCATION

Bachelor of Science in Computer Science | Accra Institute of Technology

Relevant Coursework: Artificial Intelligence, Machine Learning, Network Security, Web Development

PROJECTS

- AI Chatbot (Personal Project)

• Designed and deployed a conversational chatbot using Dialogflow and OpenAI API
• Implemented natural language understanding and web integration
• Tailored for student support and information delivery

- AI Workshop Series

• Facilitated beginner-friendly workshops on AI and machine learning concepts
• Demonstrated use of Python for data analysis and chatbot creation

ACTIVITIES & LEADERSHIP

• Tech Club Member, Accra Institute of Technology
• Mentor, MEST Africa Growth AI Hackathon – Mentored a team building an AI-powered solution for farmers, offering technical and strategic guidance
• Hackathon Participant – Co-developed a chatbot that assists farmers in pest detection and management
• Volunteer – Supported AI workshops for underrepresented communities in tech

INTERESTS

Artificial Intelligence, Chatbots, Cybersecurity, Machine Learning, Tech for Social Good

• Contributed to sales growth and brand visibility through effective communication and follow-up

• Built strong relationships with clients and ensured satisfaction with products and services

• Worked as a Sales Representative for a global company, managing customer interactions and supporting product sales in the Ghanaian market

Sales Representative | Ghana
